Although **Zarin's** mentor Ceci graduated from Harvard in Spring 2025, she wanted to see her mentee Zarin (grade 12) through her senior year. Zarin has now applied to several colleges in the Boston area, and with Ceci's continued help, is trying to make decisions about where to go. "It's very sweet to have someone show up so graciously for a mentee," says Tess Miller, EVkids Online Site Director.
